ABOUT ME

Results-driven Full Stack Developer with a strong foundation in computer science and hands-on experience in building scalable web applications. Proficient in React, .NET Core, REST APIs, and database design, with practical exposure to enterprise projects and real-world problem solving. Known for writing clean, maintainable code and quickly adapting to new technologies. Passionate about delivering reliable software solutions and continuously improving technical depth.

WORK EXPERIENCE

Riviera Infraprojects Pvt. Ltd.

Full Stack Developer

JUL 2025 – PRESENT

- Designed, developed, and maintained enterprise-scale web applications using React on the frontend and .NET Core Web API on the backend.
- Developed and optimized RESTful APIs, handling complex business logic, validations, and error scenarios.
- Worked extensively with PostgreSQL, including schema design, joins, indexing, and performance-oriented queries.
- Implemented dynamic UI components, form validations, conditional rendering, and state management in React.
- Followed structured design patterns such as MVC and MVVM to improve code maintainability and scalability.
- Debugged production issues, refactored legacy code, and improved overall system stability.
- Actively participated in code reviews and followed clean coding and version control best practices.

Full Stack Developer Intern

JAN 2025 – JUNE 2025

- Contributed to the development of internal ERP modules during a 6-month internship in a production environment.
- Assisted in building frontend screens using React and backend APIs using .NET Core, under senior developer guidance.
- Collaborated with cross-functional team members to understand requirements and deliver assigned tasks on time.
- Gained hands-on experience with real production databases and learned to write optimized SQL queries in PostgreSQL.
- Worked on bug fixes, feature enhancements, and validation logic based on functional requirements.

EDUCATION

NIRMA UNIVERSITY

MCA | CGPA: 8.48 / 10

2023-2025

GLS UNIVERSITY

BCA | CGPA: 8.35 / 10

2018-2021

SKILL

- React.js
- JWT-based authentication & authorization
- Git & GitHub
- ASP.NET Core Web API
- PostgreSQL
- AWS
- RESTful API design
- MVC and MVVM architecture
- API integration and error handling

PROJECTS

Event Management Web Application (MERN Stack)

https://github.com/jagdish245/Event_Management_backEnd

- Developed a full-stack event management platform enabling event creation, browsing, and ticket purchasing.
- Implemented admin and user roles, REST API integration, and digital ticket generation.

Water Quality Monitoring System (IoT)

- Built an IoT-based system using pH, temperature, and turbidity sensors for real-time water quality monitoring.
- Integrated sensor data with a cloud platform for storage, visualization, and trend analysis.

CERTIFICATE

AWS Academy Graduate – AWS Academy Cloud Foundations

**ISSUED BY AWS
ACADEMY · OCT 2024**
