PROFILE

Results-driven Full Stack Developer with a strong foundation in computer science and hands-on experience in building scalable web applications. Proficient in React, ASP.NET Core, REST APIs, and PostgreSQL with practical exposure to enterprise-grade ERP systems. Known for writing clean, maintainable code and quickly adapting to new technologies.

EDUCATION

- | | |
|--|--------------------|
| • Nirma University | Ahmedabad, Gujarat |
| <i>Master of Computer Applications (MCA); CGPA: 8.48</i> | 2023 – 2025 |
| • GLS University | Ahmedabad, Gujarat |
| <i>Bachelor of Computer Applications (BCA); CGPA: 8.35</i> | 2018 – 2021 |

SKILLS SUMMARY

- **Frontend:** React.js, JavaScript, Material UI
- **Backend:** ASP.NET Core Web API, Express.js, RESTful APIs, JWT Authentication & Authorization
- **Architecture:** MVC, MVVM
- **Database:** PostgreSQL, MySQL
- **Cloud & Tools:** AWS, Bitbucket, GitHub, Postman, Antigravity

EXPERIENCE

- | | |
|--|---------------------|
| • Riviera Infraprojects Pvt. Ltd. | Ahmedabad |
| <i>Full Stack Developer</i> | July 2025 – Present |
| – Designed, developed, and maintained enterprise-scale web applications using React and ASP.NET Core Web API. | |
| – Built and optimized RESTful APIs with complex business logic, validations, and error handling. | |
| – Worked extensively with PostgreSQL including schema design, joins, indexing, and performance tuning. | |
| – Implemented dynamic UI components, form validations, and conditional rendering in React. | |
| – Followed MVC and MVVM architectural patterns to ensure maintainable and scalable code. | |
| – Debugged production issues and refactored legacy code to improve system stability. | |
| – Actively participated in code reviews and followed clean coding and version control best practices. | |
| • Riviera Infraprojects Pvt. Ltd. | Ahmedabad |
| <i>Full Stack Developer Intern</i> | Jan 2025 – Jun 2025 |
| – Contributed to ERP module development in a production environment. | |
| – Assisted in building frontend screens using React and backend APIs using ASP.NET Core. | |
| – Collaborated with cross-functional team members to understand requirements and deliver assigned tasks on time. | |
| – Gained hands-on experience with real production databases and optimized SQL queries. | |
| – Worked on bug fixes, feature enhancements, and validation logic. | |

PROJECTS

- **Event Management Web Application (MERN Stack)**

Developed a full-stack platform enabling event creation, browsing, and ticket purchasing with admin and user roles. Implemented REST API integration and digital ticket generation.

- **Water Quality Monitoring System (IoT)**

Built an IoT-based system using pH, temperature, and turbidity sensors for real-time monitoring. Integrated sensor data with a cloud platform for visualization and analysis.

CERTIFICATION

- **AWS Academy Graduate – AWS Academy Cloud Foundations**

Issued by AWS Academy (October 2024)
